

AMENDMENTS TO THE SPECIFICATION

Please amend the following paragraphs of the Specification as follows.

[0045] The term “computer-usable medium” or “computer-readable medium” as used herein, refers to any medium that provides information or is usable by the processor(s) 407. Such a medium may take many forms, including, but not limited to, non-volatile, and volatile ~~and~~ ~~transmission-media~~. Non-volatile media, i.e., media that can retain information in the absence of power, ~~includes-include~~ the ROM 409, CD ROM, magnetic tape, and magnetic discs. Volatile media, i.e., media that can not retain information in the absence of power, ~~includes-include~~ the main memory 408. ~~Transmission media includes coaxial cables, copper wire and fiber optics, including the wires that comprise the bus 406. Transmission media can also take the form of carrier waves; i.e., electromagnetic waves that can be modulated, as in frequency, amplitude or phase, to transmit information signals. Additionally, transmission media can take the form of acoustic or light waves, such as those generated during radio wave and infrared data communications.~~
